

Safety Protocol for Ardmore Presbyterian Church July 30, 2021

Most restrictions for vaccinated people have been lifted. However, even if you are vaccinated, you should be cautious about attending church if you experience symptoms related to COVID-19. The following are major symptoms for the virus:

Temperature above 100 degrees
New cough
Shortness of breath
Difficulty breathing
Loss of taste and/or smell
Sore throat
Runny nose
Chills or nausea
Stomach pain or discomfort
Vomiting
Diarrhea
Congestion
New bad headache
Body aches
Extreme fatigue

Because our worship services include unvaccinated individuals, particularly those who are under age 12 and still ineligible for the vaccine, we encourage everyone to continue to follow these guidelines, especially when near children/young people:

Wear a mask
Remain at least three feet apart
Limit physical contact

APC's Safety Task Force continues to monitor local transmission rates and CDC guidelines. Given the increase in local COVID-19 positivity rates, the STF encourages **anyone** who is concerned about their personal health or the health of others to ***please feel comfortable wearing a mask.***
